

LucidSound Announces the New LS15X and LS15P Wireless Gaming Headsets Designed for Premium Performance on Xbox Series XIS and PlayStation 5

With unrivaled performance and comfort, the officially licensed LS15X and LS15P take gaming to the next level

WOODINVILLE, Wash. – October 19, 2020 – [LucidSound](https://www.lucidsound.com), crafters of audio products specifically for the needs of gamers in their everyday lives, is launching the officially licensed LS15X Wireless Gaming Headset for Xbox and LS15P Wireless Gaming Headset for PlayStation. As the latest evolution in LucidSound's iconic wireless headset line, the LS15 delivers the performance gamers expect from LucidSound with immersive features and a comfortable design that gives them the competitive edge and lets them *focus on the game*. The LS15X and LS15P are available now at [LucidSound.com](https://www.lucidsound.com), [Amazon.com](https://www.amazon.com) and [Target.com](https://www.target.com) for \$99.99.

“With the highly anticipated launch of the next generation of gaming platforms just around the corner, LucidSound has reimagined what you can expect from next gen wireless gaming headsets. We are focusing on what matters most to gamers. The LS15 delivers class leading interference-free wireless, ultra-comfortable design, a sound stage created to take advantage of the different surround sound options offered by the consoles, crystal-clear communication and our iconic control system that allows the gamer to focus on the game and make critical in-game audio adjustments intuitively.”

– Chris Von Huben [Sr. Director of Audio, LucidSound]

Wireless Performance

LucidSound’s advanced wireless chipset delivers a strong and clear wireless signal even in the most crowded WiFi and mesh network areas. Without the need for configuration, one-step setup gets you gaming in no time.

Custom-Tuned Audio and Crystal-Clear Chat with Dual Mics

Hear immersive high-fidelity stereo and Windows Sonic surround sound through powerful, precision-tuned 50mm drivers with three custom-tuned EQ modes. The conveniently designed dual mic system includes a detachable, flexible boom mic with an LED mic mute indicator for crystal-clear chat from your teammates. Removing the boom mic activates a built-in mic perfect for mobile gaming and calls.

Designed for Marathon Gaming

Be ready for long campaigns with an up to 15-hour rechargeable battery and glasses-friendly soft memory foam earpads with a flexible lightweight frame. Between matches, the spacious earcups twist flat to rest comfortably around your neck.

Intuitive Controls

Control audio and chat via on-earcup quick-access controls, making it easier than ever to adjust your comms without breaking your concentration.

About LucidSound

LucidSound was founded with a simple mission: to serve gamers everywhere by making headsets that sound great, feel great, and look great. In 2016, a small team of gaming industry veterans leveraged their collective experience to pioneer a new direction in gaming audio, bringing audiophile-grade sound, premium build quality, and a fresh take on design to the

category. Winning media awards right from the start, LucidSound has quickly become an industry leader thanks to our dedicated community of partners and fans. LucidSound aims to be the audio brand you trust in gaming and life.

In 2020, LucidSound was acquired by PowerA, a global leader in video gaming peripherals. LucidSound gaming headsets and accessories are sold at retailers worldwide.
